

Providing the tools you need to improve your maintenance program!

One-Day Basic Oil Analysis Workshop

**ONLY
\$139
(CAD)**

Thursday, August 26, 2010

8:00 am - 4:30 pm

ALS Tribology Laboratory

10717-176 Street

Edmonton, Alberta, Canada

\$139 fee includes:

- ✓ All course materials
- ✓ ALS laboratory tour
- ✓ Lunch
- ✓ Parking

ALS Tribology is pleased to present an exclusive course in basic oil analysis techniques. This comprehensive and interactive one-day workshop is designed for maintenance professionals. The program includes educating your team on the following subjects:

- Establishing an oil analysis program, including selecting critical equipment and determining sampling frequency
- Selecting the best test methods and procedures for your needs
- Determining proper sampling techniques
- Interpreting testing and analysis data
- Using oil analysis to extend oil drains and for industrial applications
- Coolant and diesel fuel testing industry standards

About Our Instructor

Greg Lewis has a mechanical background with over 20 years involvement in the mining, transport, and farming industries. He has hands-on experience as a qualified mechanic working on both light and heavy machinery and later as an equipment maintenance planner. For the last 21 years, Greg has been employed with ALS Tribology as a diagnostician, laboratory manager, and an operations manager. Greg is a NATA (lab accreditation) signatory and a long standing member of STLE.
